The new Carat.

Longer-lasting comfort and convenience.

Compact and elegant yet superbly powerful, Carat™ delivers an outstanding hearing experience combined with optimum amplification. The discreet receiver-in-canal hearing instrument features a range of advanced functionality and is suitable for almost all levels of hearing loss.

Carat

easyTek

Enjoy life's true sound.

Whether it's an open-plan office, a crowded store or a busy restaurant, wherever there's a high level of ambient noise, holding a conversation requires concentration and effort. Straining to hear voices in these situations is tiring - a fact that even people with normal hearing are familiar with.

Carat tackles these challenges. Its advanced SpeechMaster function continuously monitors what you are listening to. It focuses automatically on your conversation partner while reducing unwanted voices and background noise at the same time. You hear most clearly what you want to hear. As a result, hearing with Carat can be even less straining than normal hearing. All day long. In every situation.*

* Two independent clinical studies have shown that Signia hearing aids with binaural processing provide better than normal hearing capabilities in certain demanding listening environments.

Carat hearing instruments:

A powerful performance.

The hearing aid with more staying power for greater convenience.

Designed to make your life as simple and effortless as possible, Carat's larger battery packs even more staying power to deliver extra long performance. Its rechargeable battery eliminates the hassle of replacing fiddly batteries, making handling unbelievably convenient while giving you an outstanding hearing experience that keeps going even longer.

Elegantly compact, Carat's beautifully balanced design combines superb comfort with complete discretion.

Rocker switch
Lets you quickly and easily change the volume and program to suit the listening situation for complete convenience.

External receiver
Available in a range of power levels for optimal amplification and superbly comfortable wearability to suit every ear.

Rechargeable
Never run out of power: The eCharger recharges and dehumidifies Carat overnight, so you don't need to worry about changing small batteries.

Telecoil function
In places equipped with an induction loop, the Telecoil or T-Coil function in Carat helps you understand speakers more clearly. Simply select the T-program wherever you see the T-Coil sign.

Actual size in cm

Carat's range of natural colors are designed to match a variety of hair and skin tones.

Accessories for Carat hearing instruments:

A world of functionality.

Compatible with a wide range of practical accessories.

The ultimate in discreet control: with the touchControl App™* you can adjust Carat from your smartphone.

For an even smaller solution, just hang miniPocket™ on your keyring for convenient remote control.

For complete convenience, you can control your Carat hearing aids and stream your TV or stereo with easyTek™ and easyTek App™*.

Your Hearing Care Professional will be happy to advise you on all accessories and which is best for you.

* Compatible with Android and iOS, both apps are free of charge.
